MEMORANDUM FOR THE RECORD

SUBJECT: Digest of Comments by Coordinating Offices on "Policy Concern-
ing Additional Pay for Various Types of Hazardous Duty".

1. Comment by Chief of Operations, DD/P

    Concurs, as representing a sound basis for initiating a Hazardous
    Duty Pay Program.

2. Comment by Office of Communications

    Concurs.

3. Comment by Personnel Office

    Concurs. Recommends that a representative of the Office of
    Communications and a representative of the Office of Training
    be added to the Hazardous Duty Board.

4. Comment by Security Office

    Recommends that the following paragraph be added to paragraph 3
    in order to cover the type of hazardous duty that members of I&SO
    are occasionally called on to perform:

        "h. Individuals assigned as armed escorts or custodians
        of persons or material, or to perform other support
        functions, either in the U. S. or foreign countries, which
        duties are under hazardous conditions entailing bodily risk."

5. Comment by General Counsel

    No legal objection to paragraphs 1 through 4. Recommends deletion,
    for time being of paragraph 5 since considerable time would be
    required to get final answers to the following two questions:

        "a. The first question to be considered would be the
        advisability of CIA coordinating the proposal to pay
        additional compensation to members of the military. In
        view of the fact that the Armed Services inevitably
        would become aware of this policy either on an official
        basis or informally, it seems advantageous to alert them
        to our proposals prior to commencing payments of this type.

"b. The second question deals solely with the legal
aspects of paying additional compensation from a
civilian agency to members of the Armed Forces which
might be in contravention of the dual compensation
statutes. This matter requires some legal research
to determine finally."

6. Comment by Chief, P&P Staff

Concurs with following exception. Recommends deletion of paragraph
3. f.
